rwffa201_N_SantiamRiver	Dcarp			
rwffa203_Steve_Suicide	Dcarp			
thefisher1_StMarysRiver	Thefisher1			

Class A: Realistic populations and sizes of fish, relatively difficult to catch the largest fish (similar to typical fishing in the real world)
Class B: Somewhat exaggerated numbers or sizes of fish, or a realistic representation of an unusually easy fishing situation (possible, but very rare to find fishing like this in the real world)
Class C: Exaggerated numbers and sizes of fish (basically a fishing fantasy)
