Dear Rodeo Supporter

Thank you for showing interest in volunteering for the Santiam Canyon Stampede. Our goal as the board of directors of the rodeo is to give back as much financial support to charitable organizations within the surrounding communities as we possibly can, while entertaining as much of that community as possible through the sport of professional rodeo.

We are dedicated to providing the best possible experience to our guests during the event. While doing that we would like to have the support services we require to be made up of other non-profit groups that are in need of financial aid. This allows us to make this even more of a community event and more of the funds raised can go back to charitable organizations in need. While we can not do this with all of our contract services, there are areas where we can utilize volunteer groups to accomplish a given task or provide a service. Examples are; parking cars, cleaning up the grounds after each performance, food vendors, merchandise vendors, event setup and tear down. These are all areas where we can use volunteer labor and support services, in turn we can make a donation to the groups providing that help or in the case of a vendor, allowing them to raise money by selling their product or service. This saves us money on commercial service providers and allows those groups to earn the money they may need.

If your group is truly interested in helping out in this way, please complete the attached application and return it to the address above. The Board of Directors will review all applications, and choose the groups to fill the needed services. We do not guarantee that we will fill all of the areas of interest with volunteer groups but will do our best to accommodate as many interested groups as possible. This application process will be available every year so groups not chosen one year are encouraged to reapply the next year, as we will try to rotate groups when possible.

Again thank you, we look forward to your application

The Board of Directors  
Santiam Canyon Stampede
